*This ebook will be worth acquiring. It is actually written in basic phrases instead of hard to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.*

## **SITUATIONAL JUDGEMENT TESTS (SJTS) FOR FOUNDATION PROGRAMME ENTRY (PAPERBACK)**

Anshan Ltd, United Kingdom, 2012. Paperback. Book Condition: New. 238 x 156 mm. Language: English . Brand New Book. This book will help final year medical students improve their chances of getting their ideal medical job by practising the new style Situational Judgement Tests (SJTs) required for recruitment. It begins with an explanation of the type of questions that are asked and introduces students to exam techniques required in order to succeed in the test. Following on from this, another chapter is dedicated to the core concepts and guidelines expected of junior doctors, before finishing with several mock examinations with answers for the readers to test themselves. SJTs are currently used elsewhere in medicine for the selection of fully qualified doctors into GP training, however this type of examination and questioning is not one which any medical student will be familiar with or have come across in their training to date. The book gives a comprehensive explanation of answers including key references and topics relating to professionalism, medical ethics, GMC guidelines and foundation programme personal specifications. The contributing authors include current foundation year doctors who can offer authentic realism from their ward experience. The book will serve not only as a revision guide but also as an instructional tool to help potential junior doctors reason through professional dilemmas they may encounter in the SJT selection tests as well as in real life on the wards.
