The Time Machine is widely credited with the popularization of the concept of time travel using artificial constructs. The book has inspired a number of movies and television shows as well as countless other books and is still considered one of the finest tales in the genre. The book tells a tale of an unnamed amateur inventor who demonstrates the existence of a fourth dimension by using a specially built miniature machine. He then uses a full-sized apparatus to transport himself into the future and there meets the Eloi and the Morlocks-descendants of humans who have evolved, or devolved into sub-human creatures. This edition includes critical essays by acclaimed author and senior lecturer (Arizona State University) Paul Cook and...
